RACING FOR A HEALTHY RECOVERY
What is Race to Zero?

A global campaign to rally leadership and support from businesses, cities, regions, investors for a healthy, resilient, zero carbon recovery that prevents future threats, creates decent jobs, and unlocks inclusive, sustainable growth.

All members are committed to the same overarching goal: achieving net zero emissions by 2050 at the very latest.
Led by the High-Level Climate Champions for Climate Action – **Nigel Topping and Gonzalo Muñoz** – Race To Zero mobilizes actors outside of national governments to join the **Climate Ambition Alliance**, which was launched at the UNSG’s Climate Action Summit 2019 by the President of Chile, Sebastián Piñera.
Who’s in the Race to Zero?

The objective is to build momentum around the shift to a decarbonized economy ahead of COP26, where governments must strengthen their contributions to the Paris Agreement. This will send governments a resounding signal that business, cities, regions and investors are united in meeting the Paris goals and creating a more inclusive and resilient economy.

452 Cities
22 Regions
1,101 Businesses
45 Investors
549 Universities
Members of Race to Zero join **120 countries in the Climate Ambition Alliance**, creating the largest ever alliance committed to achieving net zero carbon emissions by 2050 at the latest.

**What’s the scale of Race to Zero?**

- **53%** Global GDP
- **23%** Global CO2 emissions
- **2.6 Billion people**
- **$4.72 Trillion in annual revenue** (for the listed companies)

Who are our partners?

Race to Zero is an exercise in radical collaboration, uniting net zero commitments from a range of leading networks and initiatives:
Who are our supporters?

We also have a number of supporters who help amplify the message of Race to Zero:
What’s the minimum criteria?

The High-level Climate Champions require that the commitments brought forward by networks and initiatives recognized in the Race to Zero campaign meet a minimum set of procedural criteria.

These process criteria represent the “Starting Line” for the race, so meeting them does not necessarily imply that an actor is on track to net zero, only that they have begun the process.

1. **Pledge**
   Pledge at the head-of-organization level to reach (net)-zero in the 2040s or sooner, or by midcentury at the latest, in line with global efforts to limit warming to 1.5C

2. **Plan**
   In advance of COP26, explain what steps will be taken toward achieving net zero, especially in the short- to medium-term. Set an interim target to achieve in the next decade, which reflects a fair share of the 50% global reduction in CO2 by 2030 identified in the IPCC Special Report on Global Warming of 1.5C

3. **Proceed**
   Take immediate action toward achieving net zero, consistent with delivering interim targets specified

4. **Publish**
   Commit to report progress at least annually, including via, to the extent possible, platforms that feed into the UNFCCC Global Climate Action Portal

A mapping of the substantive criteria is available [here](#).

A mapping of the substantive criteria is available [here](#).
How to join as a partner or supporter

**How to join as a partner:** Towards COP26, the High-Level Champions will engage new coalitions and initiatives that match Race to Zero’s ‘minimum criteria’ (outlined). They will facilitate the exponential growth of actors joining the Race to Zero and welcome participants from all sectors of society to commit to reaching net zero emissions.

1. Submit your [application form](#)

2. Submit a [list of your members](#)

   Send to our Technical Expert Peer Review Group, chaired by Oxford University: RaceToZero@unfccc.int

**How to join as a supporter:** For organizations that do not meet the ‘minimum criteria’, but who would like to mobilise their actors / members into Race to Zero, we ask them to join as a ‘supporter’. The role of supporters is to amplify the ambition and goals of the Race to Zero partners and actors. For more on how to become a recognized supporter, contact: RaceToZero@unfccc.int
### How to join as an actor

**How to join as an actor**: Individual actors (such as regions, cities, businesses and investors) are invited to join an initiative or network, which is an official Race to Zero partner. By joining one of the partners they will be directly included in Race to Zero.

**Actors can currently join through the following partners:**

<table>

2020 milestones

In 2020, the following milestones have been identified to announce new Race to Zero initiatives/members. These will help to build momentum and also to align Partners’ engagement efforts.

1. New York Climate Week
   21 September

2. TED Countdown
   10 October

3. Race to Zero Dialogues
   9-19 November

4. Paris Anniversary
   12 December
